

**Date: June 28th, 2024**

Arista Networks announces the upcoming end of sale for the 7170 and 7170B Series. This notice replaces any previously published notices related to the same product series.

The products and part numbers covered by this announcement are listed below in Table 1. The last day to order the affected products is planned for 28 September 2024.

Due to limited supply, this date is subject to product availability and may be revised without notice.

Customers with active support contracts for 7170 and 7170B Series products will continue to receive support from Arista TAC (Technical Assistance Center) according to the dates listed in Table 2, the End-of-Life Milestones, as long as the systems remain covered under a support contract.

## Migration Options

Customers affected by the End of Sales are encouraged to plan a migration to models that provide higher performance and equivalent functionality if available. The table below lists Arista systems with similar port density that should be considered as alternatives depending on the nature of the networking requirements. Customers are requested to contact Arista sales for additional information on alternatives.
